

Are you searching for a way that *you* can benefit the environment?

***The Colorado Solar Community***

*invites you to a fundraiser for the*

## **Solar Advocates Education Fund**

**Sponsored by Namaste and Ecomark Solar**

**(Additional sponsorships available)**

**Wednesday, September 28, 2016**

6:00-9:00 pm

**At the home of Roger Freeman**

1225 Cody St., Lakewood, CO 80215

*There is overwhelming support for solar energy, especially as a way to fight climate change. But Colorado's solar industry and policies are lagging behind many other states, and we need much broader public involvement and financial resources to make needed changes at the PUC, the legislature, and in the way we generate energy in our homes and businesses. Come join us for a fun, informal event to support the efforts of our state solar group and learn how you can become involved in this critical effort!*

*Located next to the Garrison Light Rail station on the W Line – prize drawing for those with Light Rail tickets!*

Food and drinks will be served.

### **Suggested Donation**

Individual: \$60\* | Couple: \$100\* | Young Professional: \$25\*

\*A small processing fee will be applied if tickets are purchased through Eventbrite.
