

# 2017 Solar Power Colorado

## Partnership Agreement

The Colorado Solar Energy Industries Association has been leading the state's dynamic solar industry for 27 years. Over that time we have experienced massive success, unprecedented growth and had much cause to celebrate. Join us March 13-15 at the Omni Hotel and Conference Center in Broomfield, Colorado.

We are offering a special incentive for a **free full conference pass** for staff or board members to the largest solar energy conference and expo in the Rocky Mountain Region in exchange for marketing outreach efforts.

To qualify, just commit to spreading the word out about 2017 Solar Power Colorado. Here's what you'll need to do:

- 1) Send two or more email messages announcing our conference to your members, colleagues and solar advocates
- 2) List our conference on your website through March 15th
- 3) Use social media outlets to promote the conference
  - a. (Facebook, Twitter, LinkedIn, etc.)
