## Biography:

Zaki has served as a director on COSSA's Board for the last three years, including spending the two years as Board Secretary. In addition, Zaki is a member of the Business Section and a co-chair of the Advanced Energy Group at Moyer White, a Denver based law firm. Zaki represents solar energy clients throughout their lifecycle, including with respect to mergers and acquisitions, asset and stock sales, supply agreements, contract negotiations, project finance, development and construction, compliance, corporate governance, and other general corporate matters. In addition, Zaki handles matters involving energy generation and storage, construction, distribution, and investment and finance, including the representation of corporate buyers and developers in connection with the purchase and sale of renewable resources.

## Solar or Storage Experience:

Zaki's team at Moyer White provides full-service representation for renewable and next-generation energy producers, developers, and manufacturers. We counsel on facilities and business development, assist in corporate and finance matters, advise on development and construction issues, and assist with risk management and regulatory compliance strategies. Zaki's particular practice has been focused on project acquisition and development issues, corporate and finance matters, and assisting with risk management and regulatory compliance strategies.

## My Priorities:

**Protect Past Wins.** The past few years have been very successful for the industry from a policy and regulatory perspective, but as we mature others may begin to see us as a threat. We need to make sure that we have the ability to protect those wins and prevent others from chipping away at them.

**Anticipate Future Changes.** As industry and consumers become ever more aware of the global climate change realities, and investors increasingly see market opportunity in the solar space, it is inevitable that our industry grows and changes. The passage of the 2022 Inflation Reduction Act is sure to fuel our industry for years to come, and I want to make sure that COSSA continues to have the influence and credibility to ensure that COSSA members have a role in shaping those changes, and that our members benefit from the new business opportunities.

**Consumer Outreach and advocacy.** We need to continue to spread our message about the benefits that Solar can provide to individuals, businesses, and the State as a whole. In addition to the market opportunities this will provide our members, the continued increase in the number of supporters we have on our side will create an even more favorable regulatory and legislative climate for our industry.

**My Strengths:**

Zaki is a trained attorney with experience not only in the solar industry, but also with organizational management and corporate governance. Zaki's practice touches on many of the issues affecting COSSA members, including regulatory and policy changes, and have experience advocating on behalf of constituents at various stages of the legislative and rulemaking process. Zaki understands and is passionate about the goals of COSSA as an organization, and has the skills to help the organization achieve those goals while fulfilling its legal responsibilities non-profit objectives.
