

Colorado Solar & Storage Association

How Policy Is Made at COSSA

General Membership

Every Member will have multiple opportunities each month to receive policy updates on legislation and regulations, as well as provide input on COSSA positions.

Policy Subcommittees

COSSA members who wish to have a higher level of involvement to formulate policy can join a policy committee. Subcommittees are specific to each market segment and take deep dives into policy work and updates every two weeks. Additional time and financial resources are required.
